HOOVER HAILED IN WASHINGTON

Capital Sincerely Glad to See Favorite Again

Plans for Further Speaking Tours to be Laid

Candidate Has Learned How to Meet Voters

(Continued from First Page)

The scene at the station clearly demonstrated that the Hoover will be well liked as occupants of the White House.

At the Hoover residence following the escape from the throngs at the station, the Presidential nominee before retiring held a brief conference with Chairman Work and other Republican leaders. Tomorrow will be a busy day for him as prominent party men and women flock to his home to congratulate him on the success of his western trip.

Those in the Hoover official party returned to Washington supremely confident that Mr. Hoover by his speeches and personal contact with the West has completely won over all the important territory west of the Mississippi River and has wiped out all former campaign disaffection by his clear-cut, practical proposals for farm relief.

HE'S OPTIMISTIC

Mr. Hoover himself exhibited optimism although he had nothing formally to say to newspaper correspondents. He came back to the capital a changed man. Bronzed from his many hours on open platforms and his fishing excursion in Northern California and Oregon he appeared the picture of health and in excellent condition to continue a strenuous campaign. But the greatest change noted was in his manner of meeting people. His old-time shyness gone, his six weeks swing across the country seems to have made him a seasoned campaigner.

When he left Washington it was with ill-concealed reluctance to plunge into his expedition as a candidate before the public. When he came back tonight it was as a man who has learned how to meet the public easily, naturally and without effort. Unless appearances tonight were all wrong Mr. Hoover actually has learned to like this thing of getting out and meeting people.

OTHER TOURS WANTED

Republican leaders hope this is the case, for in view of the remarkable success of his western trip they want to induce him to drop his original plans and make several more extended speaking tours.

This will be one matter that will be decided in conference to be held the next week or two at the mansion on R street, near Hoover's own home, which now is being fitted up to serve as an executive office and base for Mr. Hoover throughout the remainder of the campaign. The nominee is expected to install himself there Monday or Tuesday. To get to the house he has only to walk through his own back yard, through the back yard of the other residence and enter by the rear door. If he walks around by the street the distance is two blocks from his own front door.

VISITS TO SOUTH WILL BE CONSIDERED

WASHINGTON, Aug. 24. (AP)—Herbert Hoover moved back into the East today to the sector that present predictions fix as the scene of some of the most earnest efforts of his campaign for the Presidency, completing an 8000-mile swing around the circle and his first political journey.

The Republican candidate returns to his headquarters at the national capital well pleased with conditions as he found them in the West, but more than ever convinced that there is a difficult contest ahead.

He emphasized this conviction in rear platform talks at several Pennsylvania cities through which his train passed during the day. He told party stalwarts who greeted him at Pittsburgh that Republicans must exercise every energy if victory is to be assured in November.

While his plans for the remainder of the campaign are still indefinite, it is learned that he has under consideration a visit to Texas, where Thomas E. Love, former national committeeman, is leading a movement for the organization of Texas Democrats to support the Republican Presidential ticket. If he goes to Texas he probably will speak at Dallas. Moreover, the nominee is considering a visit to North Carolina, to speak either at Raleigh or Charlotte.

Some advisers are suggesting that he extend his southern tour to take in Virginia and Georgia if not Alabama, either at the time he goes to Memphis for his speech there, or on some other occasion.

BEST TO BE SOUGHT

The Republican candidate will meet Gov. Smith on his own battleground in the East, making speeches in New York State and in one or two places in New England. Plans for that swing have yet to be worked out. For the next few days Hoover will seek as much rest as possible after the grind of the transcontinental trip. However, he will confer with Chairman Work of the Republican National Committee and others, and will devote some attention to the establishment of his personal headquarters near his own home on R street. His workshop will be wholly dissociated from the Republican national headquarters in the downtown district.

As was the case in the normally Republican States of Kansas and Iowa, Hoover received an enthusiastic greeting as his train moved through Pennsylvania.

At Harrisburg, Gov. Fisher officially welcomed him and a number of other State leaders greeted him at the Pennsylvania capital.

WASHINGTON, Aug. 24. (Exclusive)—A clear-cut and sizable Republican majority in the Senate for the first time in several years was predicted today by Senator Metcalf of Rhode Island, on his return to Washington to assume active charge of the campaign of the Republican Senatorial committee of which he is chairman.

He declared, however, that it is too early to attempt any forecast of just how many Senate seats the Republican party will win, or in what States they will make gains. "I will make no predictions," he said, "until after the last of the nominating conventions and primaries have been held. From a preliminary survey, though, I will say that the party should have a very good majority in the next Senate."

Senator Metcalf said, in his opinion the tariff will be the major issue of the Senatorial campaign and that the women of the nation because of their strong friendship for Hoover will be a great factor in Republican success both in the Presidential and Congressional campaigns.

Some advisers are suggesting that he extend his southern tour to take in Virginia and Georgia if not Alabama, either at the time he goes to Memphis for his speech there, or on some other occasion.

WASHINGTON, Aug. 24. (AP)—The fight of the Anaconda Copper Mining Company to have set aside patents, this evidence they conserving furnaces used virtually in all output of copper produced in the United States reached Supreme Court today.

Charles E. Hughes and William Wallace, Jr., appearing among counsel for the mining company, contended in their petition that since the patents, originally granted George C. Carson and now owned by the investment company and others, were sustained in the infringement case against the American Smelting and Refining Company, much new and controlling evidence has been collected to challenge their validity.

Search has developed, they asserted, that the furnace was known and used prior to the granting of the Carson patents and had been fully covered by previous British Patents. This evidence they consider sufficient to warrant the Supreme Court declaring the Carson patents void. They claim that the method of side-charging on the furnace which is in issue was first obtained from the smelting plant at Copper Cliff, Canada, fourteen months before the first Carson patent was issued and five years before he obtained his second patent.

Wreck Transforms Subway Into Shambles

SUBWAY CHIEF HERE DAZED

General Superintendent Can't Picture Mentally How New York Disaster Occurred

A. L. Merritt, for fourteen years general superintendent of New York's subway system, last night paced the floor of the lobby of the Clark Hotel here, as he waited information from his home city giving details of the train accident which took a score of lives and injured many.

"I cannot understand how the accident occurred," the gray-haired man said. "No such thing ever has occurred before, and the Interborough Rapid Transit Company has always taken extra precautions at the Times Square station. This station is the busiest in the city, and we operate a ten-car train out of there every minute and forty-nine seconds between 5 and 7 p.m. In addition to the fifty men stationed on the platform during the rush period, there is a train master at the station, and there is a train dispatcher who looks down on the very spot where the accident is reported to have occurred."

"It is terrible to think of the death and injury of so many people, and in my mind's eye I can review the entire scene. There is an important switch just south of Times Square station, but I understand from reports that the train was held while repairs were being made. If the switch was defective, and the cause of the disaster, the train could not have been running over fifteen miles an hour and this certainly saved many lives. But I can't understand how the maintenance men who inspect this particular section could have overlooked a bad switch. There are two track inspectors who watch this district carefully. The accident is not only one of great sorrow, but of mystery to me, and also breaks my fourteen-year record for no disasters," Merritt said.

Mr. and Mrs. Merritt left New York on the 14th inst. for their annual vacation and arrived here Tuesday. Unless Mr. Merritt receives instructions to return home at once, they will continue their trip. Mr. Merritt has been with the subway system since it opened in 1904.

TRAFFIC TIED UP ALL NIGHT

(Continued from First Page)

there was calm. Police at Forty-first and Forty-second streets and down at Thirty-ninth street turned all automobile traffic off Seventh avenue. The street was filled with fire trucks and subway repair apparatus.

As theater time neared the usual crowds began to flock into Times Square, streaming toward the lighted entrances of the playhouses, apparently oblivious of what had happened, despite the shouts of the newsmen.

One man rushed into a cigar store when he heard about it and called up his wife. "Say, there's been a big subway wreck," he shouted. "Thousand people killed. No trains running at all."

And police had to turn back thousands who started down to take trains. They had not heard about it.

STOWAWAYS IN SHIP'S HOLD DIE

(Continued from First Page)

dropping the rope through the ventilator. The ship left Buenos Aires July 23, stopped at Rio de Janeiro and sailed from there the 5th inst. Ship's officers thought the men had boarded the ship at the Brazilian capital.

Because of yellow fever at the ports she had touched the crew of the Steel Inventor was taken off and the fumigation begun after hatches had been battened down.

SUBWAY HORROR INQUIRY STARTS

Seventeen Killed and More Than 100 Injured

Split Switch Reported to be Cause of Crash

Eyewitnesses Give Stories of Tube Horrors

(Continued from First Page)

clear the tangled remains of the car and restore service.

Mayor Walker, notified of the accident, hurried to the scene but arrived too late to take part in the rescue work.

Firemen quickly extinguished the blaze in the subway, confined almost entirely to insulation on the high-tension electric cables.

The crash occurred just above Forty-first street and was heard for almost a block away from numerous subway entrances built in that area to accommodate the hundreds of thousands using the subway daily. Detective William B. Kirk, standing at the Forty-first street entrance, heard the roar of the collision, the noise of breaking steel, and the cries of the injured. Smoke almost immediately poured from the ventilator gratings in the street that allow air to enter the subterranean passages.

At least fifty doctors worked amid the wreckage, giving first-aid work on the passenger platform of the Times Square station, which stretches for almost two city blocks. Policemen guarded every entrance way and rope lines were thrown about the entire section to hold back the crowds of tens of thousands gathered in the square above the scenes of the wreck.

At the Bellevue Hospital near by twenty physicians and fifty nurses were treated there, thirty of them crushed apparently beyond recognition. In another part of the car was found the head of a boy. Baker said he was standing on the Times Square platform when the crash came. The car doors were closed, he said, but in a few minutes they swung open and the passengers rushed for the platform in a fighting mob.

The subway crash was the most serious on this city's subway system since 1918, when nearly 100 persons were killed in the derailment of a Brooklyn-Manhattan transit-line train.

BUSINESS DISTRICT BAZED

TURKS MEN OF LETTERS NOW-- ALL HANDS CON NEW ALPHABET

CONSTANTINOPLE, Aug. 24. (AP)—The State printing house is working overtime and all Turkey is organized into a vast school to further the new Latin alphabet which Mustafa Kemal has decreed must replace Arabic characters in daily Turkish life. Popular courses are offered even in coffee houses.

The state printers are turning out 150,000 copies of the Turkish President's new alphabet grammar. These are to be distributed gratis.

President Kemal is continuing unabated his tremendous personal activity in behalf of the new letter.

On his return here he said: "I am overjoyed at the celebrity with which the new alphabet is being propagated. It is not difficult to imagine the bright future of a nation which is so energetically determined on advancement."

Turkish newspapers suggest that the new A B C's be called "Ghazal's alphabet," since it was adopted because of the President's genius in seeing the need for the change.

There it was said that of the two critically injured, one, a woman of 40, probably would die. She suffered a fractured skull. Of the many others there, only two were seriously injured.

The French Hospital was so crowded with patients that a call was sent for extra help from other institutions. Over forty persons were treated there, thirty of them remaining for further attention.

So terrific was the force that wrenched the car to fragments as it smashed against the subway wall that the body of a workman was crushed apparently beyond recognition. In another part of the car was found the head of a boy.

Baker said he was standing on the Times Square platform when the crash came. The car doors were closed, he said, but in a few minutes they swung open and the passengers rushed for the platform in a fighting mob.

PRESIDENT'S FISHING TRIP GALA AFFAIR

Coolidge Plans to New Waters Under Old Lodge Official, Parade Meets Him

LEWIS (WLA) Aug. 24. (P)—President Coolidge's fishing trip to the New England coast today will be a gala affair. The President will be met at the New England coast by a large number of officials and a parade will be held in his honor. The President will be accompanied by his family and a large number of officials. The trip will be a very successful one and the President will be very happy to be with his family.

QUEZON RESIGNS IN PHILIPPINE

MANILA, Aug. 24. (P)—The Philippine Commission today announced that Governor Quezon had resigned his office. The resignation was accepted by the commission. The commission will now select a new governor for the Philippines. The resignation was a surprise to many people in Manila. Governor Quezon had been in office for a long time and was very popular. The commission will select a new governor as soon as possible.

Anti-Stocking Fad in Court

OKLAHOMA CITY, Aug. 24. (P)—The question of propriety of the stockingless fad reached the courts here today. A woman was charged with violating the law against stockingless fads. The court will decide if the law is valid. The woman was charged with violating the law against stockingless fads. The court will decide if the law is valid.

FLIGHT RADIO HOAX CHARGE

CHICAGO, Aug. 24. (P)—Although amateur radio operators in Chicago, Toledo and Brooklyn received messages last night purporting to come from the missing Rockford-to-Stockholm flyers, radio experts to-night frankly are skeptical that the messages came from Bert Hassell and Parker Cramer, the missing aviators.

ACTRESS DIES ON SHIP

LONDON, Aug. 24. (P)—Ardath De Sales, an American actress from Seattle, on her way from New York to England, died today. She was 35 years old. She was on a ship when she died. The ship was on its way from New York to England. She was a famous actress and had been in many movies. Her death was a great loss to the film industry.

SMITH SEEN AS DEFEATING SELF

SPRINGFIELD (Mo.) Aug. 24. (P)—M. D. Lightfoot, chairman of the National Democratic Hoover for President Committee, in a statement here today declared that Gov. Smith's statements on immigration and prohibition in his acceptance speech do not defeat him, "then nothing can defeat him."

LIVING GODS AND GODDESSES FIND THEIR OLYMPUS IN JAIL

TOKIO, Aug. 24. (P)—A group of 70,000 "living gods and goddesses" is under arrest with 178 of its followers, committed to trial on charges of disrespect toward the Japanese ruling house. The group is a fanatical religious sect which asserts it is descended from the national gods of Japan and consequently asserts the right to rule the country.

JERSEY CROWDS APPLAUD SMITH

SEAGIRT (N. J.) Aug. 24. (P)—Cheered by crowds which at times blocked the progress of his automobile, Gov. Smith passed today through an industrial section of New Jersey and came for a week-end stay to this seashore community where Woodrow Wilson made his home during the Presidential campaign of 1912.

ENVOYS GATHER TO SIGN TREATY

PARIS, Aug. 24. (P)—Plenipotentiaries representing fifteen nations were gathered here tonight to enter a written undertaking on behalf of their governments that as among themselves, they will renounce war as an instrument of national policy. When this formally is completed, Mrs. Mac will be open for the adherents of forty-seven other nations.

TRouble IN PROSPECT FOR BUFORD

Former Transport, Due to Join 'Hotel' Fleet Here, in Mix-up Over Papers

SAN FRANCISCO, Aug. 24. (Exclusive)—Trouble may be in store for the former transport Buford, which sailed from San Francisco the 1st inst. for Southern California to engage in the "floating-hotel" business. According to information in the hands of Capt. D. F. A. De Otte, division commander of the United States Coast Guard, the steamer left port without obtaining the proper papers. He has notified the Coast Guard section base at Los Angeles, where an investigation is being made by employees of the Treasury Department.

TALLEYRAND'S ADAGE PROVED

Josephine Daniels' Letter to Woman Returns to Plunge Him

WASHINGTON, Aug. 24. (P)—Facsimile copies of a letter dated April 22, 1927, quoting former Secretary of the Navy Daniels in opposition to Gov. Smith were distributed today by the publicity department of the Republican National Committee.

Addressed to Mrs. Nelly Hall, Room 322 Carroll Park West, Long Beach, Cal., the letter denied published reports that Daniels had endorsed Smith.

"I think it would be a fatal mistake for the Democratic party to nominate a man with the wet record of Gov. Smith," it continued, "and I could not stand for any wet."

Don't fool yourself

Since halitosis never announces itself to the victim, you may not know when you have it.

Halitosis may get you fired

WHAT kind of people do employers like to have around them? Certainly not people with halitosis (unpleasant breath). You can't blame a man for firing an employee with halitosis to hire one without it. Don't fool yourself that you never have halitosis. It's impossible for you to know when you are a victim. Don't take the chance. Keep yourself continually on the safe and polite side by daily rinsing the mouth with Listerine, the safe antiseptic. Being a powerful deodorant, it ends halitosis instantly. If you doubt its deodorizing power rub a little onion on your hand, then apply Listerine clear. Immediately the odor is gone. Thousands who used to be unwelcome because of halitosis are now acceptable anywhere. Lambert Pharmaceutical Company, St. Louis, Mo., U. S. A.

Jersey Crowds Applaud Smith

Governor Passes Through Industrial Section

Throngs Block Automobile in Jersey City

Nominee Will Attend Party Rally on Trip

SEAGIRT (N. J.) Aug. 24. (P)—Cheered by crowds which at times blocked the progress of his automobile, Gov. Smith passed today through an industrial section of New Jersey and came for a week-end stay to this seashore community where Woodrow Wilson made his home during the Presidential campaign of 1912.

Tonight the Democratic Presidential nominee was quartered with his family in a hotel at Spring Lake, two miles from Seagirt. Tomorrow he will attend a huge Democratic rally and receive National Guard troops encamped here, where the State of New Jersey provides its Governor summer home.

After an overnight stay in New York, where he went after his notification in Albany, and a morning visit to Democratic campaign headquarters, Gov. Smith invaded New Jersey, but not until he had visited the Municipal Building, where he could cast a vote for himself on election day.

CHEERS START

No sooner had his motor car, with top down, emerged from the New Jersey end of the vehicular tunnel under the Hudson, than the Democratic standard bearer became the center of an enthusiastic demonstration.

As his automobile moved through part of Jersey City, in the Democratic stronghold of Hudson county, where Mayor Hague, one of the nation's leading politicians, party leader, men, women and children swept out from the curb. At times they surged and the Governor's car to come to a standstill, as motorcycle police sought to clear a pathway.

Again in Newark, admirers swarmed out into the roadway cheering the passing nominee, who kept waving his straw hat in acknowledgment. In front of the Newark City Hall and at several other points in the city the throng became so dense that the Governor's automobile could only move at a snail's pace or was halted.

POLICE CLEAR ROAD

During the late afternoon, the nominee traveled on through Elizabeth, Rahway, Perth Amboy, and along the shore through Long Branch, Asbury Park, Ocean Grove and other resorts before reaching the new Monmouth Hotel at Spring Lake. State police on motorcycles cleared the highway.

There were cheering crowds in each community and at several points bouquets of flowers were handed the Governor and his wife.

SMITH HAPPY

Smith enjoyed his reception, particularly the ovation given him by firemen at several Newark stations who let go with their sirens and fire guns.

The New York executive found not only Gov. Moore of New Jersey but Gov. Ritchie of Maryland, both of them Democrats, here to take part in tomorrow's rally, which Senator Edwards of this State and William L. Hill, Democratic gubernatorial nominee, also are expected to attend.

If the weather is good those in charge of arrangements predict that more than 100,000 persons will be on hand.

Standards at Washington Applies Tests Which Determine Masters among watchmakers of the nation. When a timepiece successfully passes the many tests at the bureau, its maker is given a "master's" certificate. R. E. Gould, horologist, making laboratory tests of super-watches submitted to bureau for examination. (P. & A. photo.)

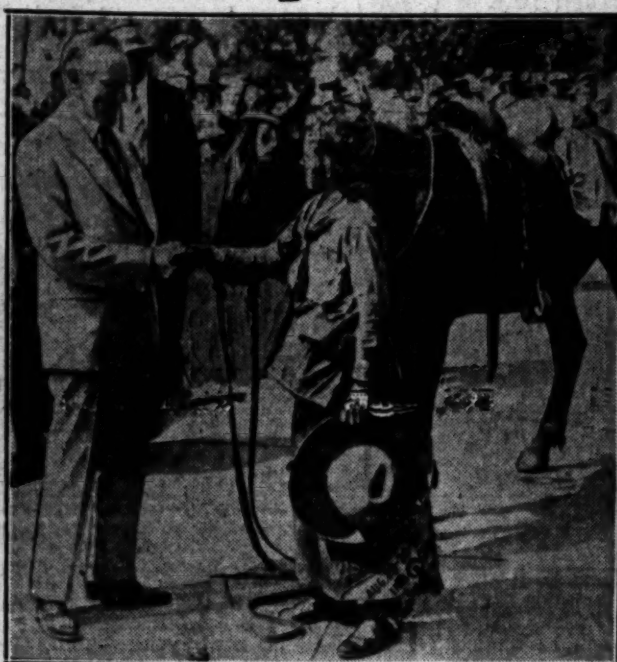

Altitude Record for Women Flyers is believed to have been set by Miss Eleanor Smith at Curtis Field, Long Island, N. Y., who declares she climbed to a height of 12,000 feet. Her barograph, shown in her hands, is being officially examined and recorded. (P. & A. photo.)

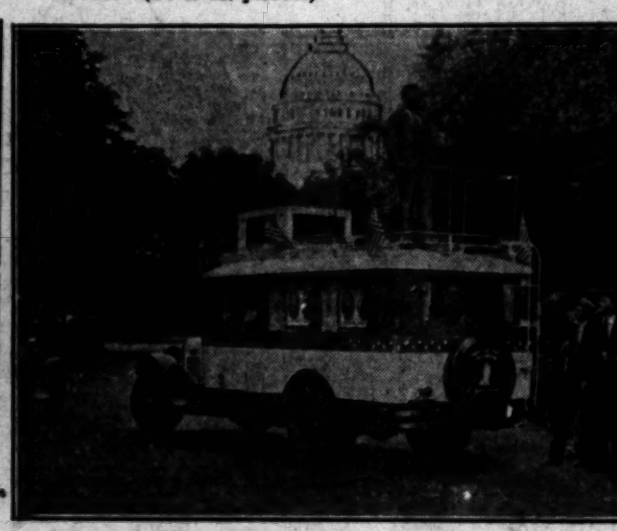

Awaits Missing Flyers—Prof. W. H. Hobbs, leader of University of Michigan Greenland expedition, prepared landing place on Greenland for Rockford flyers. (P. & A. photo.)

Important Unit of the Hoover Family, Mrs. Herbert Hoover, Jr., her son Herbert Hoover III, and her daughter, Miss Peggy Anne, arrived this week at Palo Alto from Concord, Mass. Miss Peggy is the attractive young lady shown at left in this photo. (P. & A. photo.)

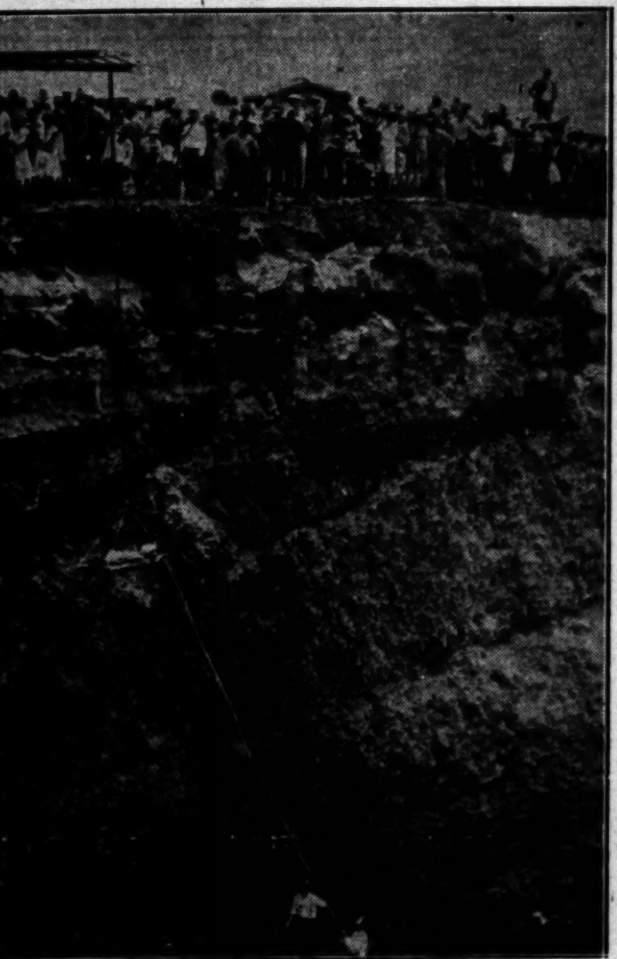

Boy Scouts May Come to the Rescue of Molly, Indian pony which Boyd Jones, 14, rode from Gallup, N. M., to Superior, Wis., to deliver a civic invitation to President Coolidge. Scouts propose to relay Molly home. President, Boyd and Molly are pictured above. (P. & A. photo.)

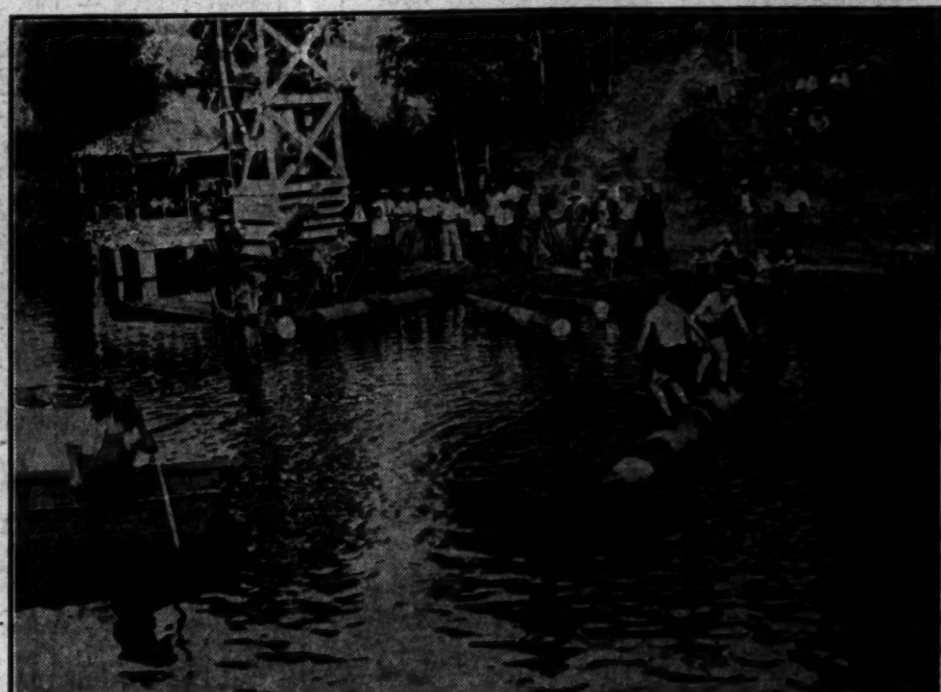

Fleet of Specially Equipped Buses For Use of Republican Speakers during Presidential campaign in East has been placed in commission at Republican national headquarters at Washington. The tops of the busses are fitted as speaker's platforms, while the interiors are combination lounging and office quarters. One of busses above. (P. & A. photo.)

Private Use of Aircraft Has Attained Greater Proportions in Southland than in any other section of the United States, according to recently released figures. Arthur Stone of Los Angeles is one of the many who make regular use of private plane. He flies several times a week from Hollywood to Kellogg ranch near Pomona for horseback ride. He's shown here leaving plane at ranch.

A Problem in Engineering Confronted San Diego Police a Few Days Ago when a car carrying a man and a woman plunged over a cliff onto a beach. The man was killed and the woman suffered two broken legs and internal injuries. Photo shows firemen and police raising unfortunate women out of her prison on an improvised sling. (A. P. photo.)

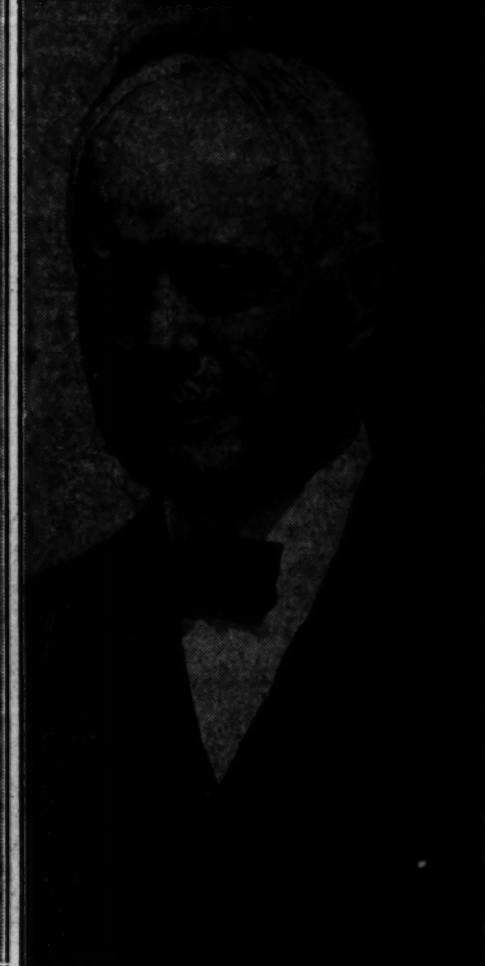

A 17-Year-Old Youth Won World's Log Rolling Championship in finals staged this week at Washburn, Wis., in which scores of the crack "lumberjacks" of the north woods participated. The photo shows the Eau Claire youth (right) burling against a district champion just before the latter was hurled into water during semifinal matches. (P. & A. photo.)

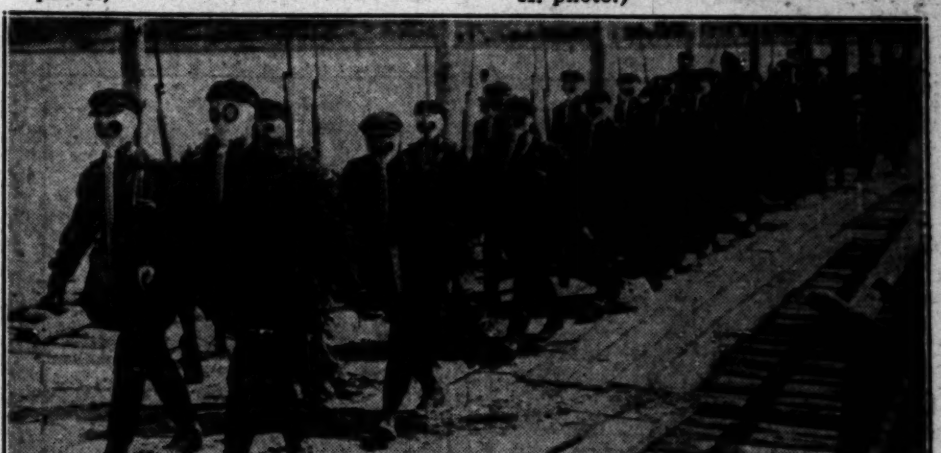

Rebound of Echo From Bed of the Ocean is the means by which depths are accurately measured through use of the "fathometer," the invention of Dr. Herbert G. Dorsey of United States Coast and Geodetic Survey. The machine, here pictured with the inventor, has proved practical. (P. & A. photo.)

New Channel Conqueror, Miss Laddie Sharp, 17-year-old English girl, who yesterday crossed from Cape Gris-Nez to Dover, trains for test. (A. P. photo.)

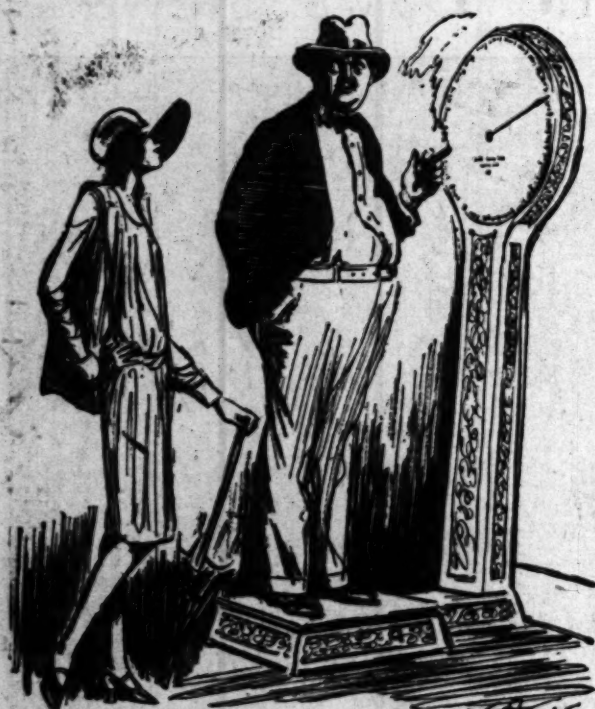

New Secretary of Commerce, William F. Whiting of Holyoke, Mass., is a personal friend of President Coolidge. He succeeds Herbert Hoover. (P. & A. photo.)

More Than Any Other Nation Russia is Developing Military Strength through compulsory training of Communist youth. Several big maneuvers are conducted annually and a percentage of the youth of the nation is always under training. Photo shows a detachment crossing a theoretically gassed bridge, wearing gas masks and carrying camouflage. (P. & A. photo.)

"Don't be so funny, Mabel. This is no time for levity. It's a case of gravity."

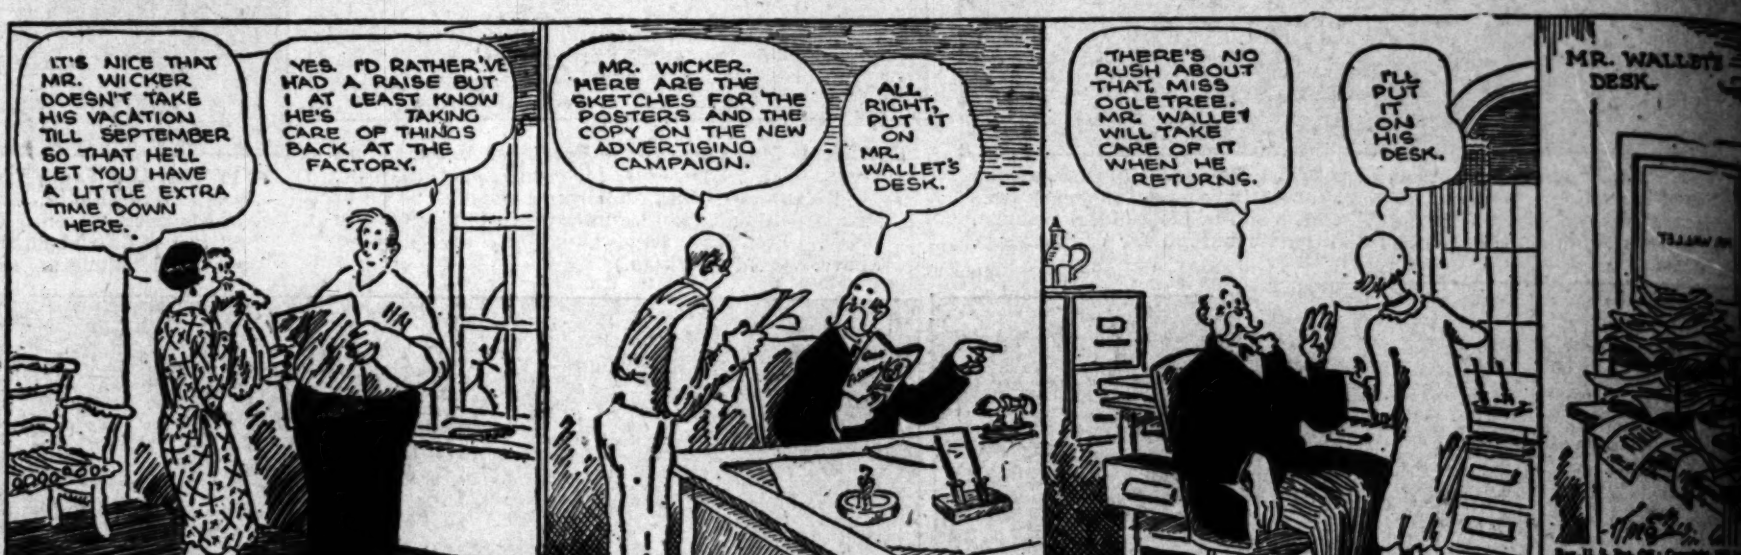

CHUCKLES from LIFE

Jonesville Goes Fishing
 "You can't sell a man who has a hook on his mind," remarked the gray-haired traveling salesman, as he dropped into one of the hickory chairs outside the New Palace Hotel in Jonesville. "I have been trying for years to get the house to see that there is no use covering this territory during the fishing season."
 "The rest of the year not one of my customers would let a note go to protest or fail to discount a bill; but from the time the trays of artificial bait appear in the store windows until the late season ends, the word 'bankruptcy' loses its meaning. Some of these old fellows would welcome a receiver, for he could keep store while they fished."
 "I remember one time the President made Jonesville one of his speaking tours. One of my best customers was Mayor, and president of the Chamber of Commerce, and the committee was looking for him to welcome the President and give him the keys of the city. The Mayor couldn't be found. After the President had gone he turned up. He had gone to the basement of his store on an errand and had run across an old fishing reel. He had set down to examine it and had forgotten about his engagement. "I might as well lay off for a month, and go fishing,"
 McC. H.
Lovely Jane
 "I really never make you out," he said to lovely Jane.
 "Now need you turn away and pout?"
 "I really never make you out. Although your speech is clear, no doubt."
 "How can a pretty maid be plain?"
 "I really never make you out."
 He said to lovely Jane.
 E. B.
Toot, Toot!
 "I do not know, I do not care. How far it is to anywhere. I only know that where I'm not is always an alluring spot."

Hitting of Locals Too Much for Solons

Triple Starts Fun in Second Inning

CRAMENTO, Aug. 24.—Holly stepped into undisputed possession of first place in the Coast League today by defeating the Senators, who have occupied the honor position for several weeks. It was the third straight drubbing administered to the local club. Their hopes for the second-half pennant somewhat dimmed, the Sacramento Senators are looking for a win who said the Hollywood team's hit. They have had the best of the week of the coast league with the willow and cement was just a repetition of the two previous beatings. They lost so time in the fourth game of the second to more four runs on a like of second baseman. But they had lasted a game in the was the victim.

STOCK MARKET IN SHARP RALLY

(Continued From Tenth Page)

tenatively as for the Atlantic, although the Texas and Florida and Rock Island established new high prices. Gains in the others ranged from 1 to 4 points.

Gold held steady at 7 percent all day and there was no change in time money and commercial paper rates. Bankers estimate that about \$100,000,000 of new \$100,000,000 in currency will be withdrawn from the banks next week in connection with Labor Day holidays. It is expected that this will tend to cause another flurry in call money rates.

Commodity markets were mixed. Wheat dropped about 10 cents a bushel when the expected frosts in Canada failed to develop. Cotton rallied about 50 cents a bale. Sugar and coffee advances were slight.

REUTERS.

A brisk rally of 35 points in Japanese yen, which were quoted around 45.10 cents, was the only development of consequence in the foreign exchange market. Sterling cables were slightly firmer, around \$4.85 5-16.

Wheat Market Lower Due to Frost Report

CHICAGO, Aug. 24. (AP)—Wheat market closed lower today because of a report that a frost had killed the wheat in the Argentine.

Chicago wheat closed at 1.10 1/2, down from 1.11 1/2 yesterday. The market was active and the price of wheat was lower because of a report that a frost had killed the wheat in the Argentine.

Wheat futures closed at 1.10 1/2, down from 1.11 1/2 yesterday. The market was active and the price of wheat was lower because of a report that a frost had killed the wheat in the Argentine.

Wheat futures closed at 1.10 1/2, down from 1.11 1/2 yesterday. The market was active and the price of wheat was lower because of a report that a frost had killed the wheat in the Argentine.

NEW YORK BOND PRICES

NEW YORK, Aug. 24. (AP)—Stock market enthusiasm spread to the bond market today. Trading was about the heaviest of the week, the volume of sales exceeding \$100,000,000, and prices were generally higher.

The following table shows the prices of various bonds as of August 24, 1928:

| Bond | Price |

PHOTO RADIO TO BE DISCUSSED

Talk Will Be Illustrated With Lantern Slides

Broadcast Testimony Put in Leaflet Form

Symphony and Concert Hours Feature KHJ Studio

BY DR. RALPH L. POWER

The first meeting of fall for the Southern California section of the Institute of Radio Engineers is planned for next Monday night at 633 South Flower street.

Following a dinner, Maj. R. H. Ranger, engineer from the New York office of the Radio Corporation of America, will talk on "Further Developments in Photo Radio," which will be illustrated with slides and blackboard illustrations.

The lecture will survey the various phases of picture transmission by radio, including a sketch of progress in different countries, features of modern advances and applications in the United States.

The gathering will not be the regular fall meeting of the institute, but will be in the form of a special session.

RADIO LEAFLETS READY

The day's mail brings "Radio Facts and Principles," with the subtitle "Limiting the Total Number of Broadcast Stations Which May Operate Simultaneously in the United States."

The publication, of twenty pages, contains the testimony of John W. Hagan, radio engineer, before the Radio Commission on July 23, last. Commissioner H. A. Lofgren has distributed copies of the leaflet to radio stations of the fifth zone.

Those who are interested in obtaining a copy, however, should not write to the commission. The booklets may be procured from the government Printing Office at 5 cents a copy.

DON LEE SCHEDULE

Mrs. Jeanne Forest, soprano, again will be the vocalist on the station, KHJ, tonight.

The concert orchestra numbers will include the overture from "Romeo and Juliet," by Giuseppe Verdi, and the characteristic "Jewels of the Madonna," and the characteristic "Guard Mount" by Elgar.

Then Charlie Wellman will conduct the Movie Club program until 8 o'clock, when the concert orchestra will again play. Some of the selections will be for strings alone, and there will also be some vocal numbers.

The 9 o'clock concert will be the Saturday night symphony hour, with Ivan Edwards, tenor, as soloist, assisted by Eleanor Remick, coloratura. Karl Burnett's orchestra will play dance numbers from 10 o'clock until midnight, when Charlie Wellman will stage the Merry-makers' Frolic for an hour.

STAR WILL BREAK HIS RADIO SILENCE

Ronald Colman, film star, will break his radio silence long enough Monday night to appear on a special program hour under the auspices of the United Artists Theater and Samuel Goldwyn will broadcast by Don Lee's station KHJ between 9 and 10 o'clock. Fred Niles will serve as honorary announcer.

A feature of the hour program will be the introduction of the most recent musical composition written by Dr. Hugo Riesenfeld, managing director of the United Artists Theater circuit. The number, entitled "Lovers," has been dedicated to Vilma Banky. The KHJ symphony orchestra, with Dr. Riesenfeld serving as piano conductor for the occasion, will play the composition.

Monday evening's program is one of a series of special hour entertainments presented by the United Artists Theater on Don Lee's station KHJ during the last few months.

Tale of Cruelty Wins Divorce

Ann Pennington Walker, who says she is not related to Ann Pennington, the dancer, was granted a divorce yesterday from George Walker by Superior Judge Anderson on the grounds of cruelty.

Mrs. Walker told Judge Anderson that her husband frequently flaunted other women before her much to her humiliation; that he refused to take her out to places of amusement and often told her he wished she would leave him.

The couple were married at Dayton, Tenn., on December 3, 1923.

WRIGHT TO FLY OVER DISTRICT

Supervisor Will Close
Campaign With Flight
Over Constituency

Supervisor Wright will conclude his campaign for re-election from the Fifth Supervisorial district by an airplane flight over his district tomorrow, he announced yesterday. The district which Mr. Wright has represented for the past six years covers more than half of Los Angeles county, is covered by several thousand miles of streets and highways and is as diversified in its scenery and topography as it is in its classes of population. The section is bounded on the west by Ventura county, on the south by the ocean, on the north by San Bernardino and Kern counties and on the east by Riverside and San Bernardino counties. It includes the Sierra Madre and Santa Monica mountain ranges, Antelope Valley, a section of the Mojave Desert, a portion of the Los Angeles metropolitan district, including Hollywood, Eagle Rock and Highland Park, the entire San Fernando Valley and the cities of Burbank, Glendale, Tujunga, Pasadena, South Pasadena, Monterey Park and Altadena.

Hospital Site Offered City to be Visited

On recommendation of President Pontius of the Health Commission, that body is to make an inspection Monday of the old Sisters' Hospital on Sunset Boulevard, several blocks west of Figueroa street, which recently was offered to the city for \$450,000. The offer, received by the City Council, was referred to the Health Commission, and Mr. Pontius was of the opinion that it might be an excellent purchase for the city. He expressed the view that it would be a good thing for Los Angeles to acquire property when it can at a low figure. The property in question consists of six and one-half acres on which the late Rudolph Valentino under the late film actress early next year. The commissioners were of the opinion the property might be useful as a central point for handling of health matters. They will invite members of the City Council to accompany them on the inspection.

ACTRESS-BRIDE IN OLD ROLE

Legal Tangles Will Make Jacqueline Logan Play
"Wife in Name Only" in Real Life

Jacqueline Logan is going to play in real life the part that stars of the screen have played in films since time immemorial with more or less success—that of the "wife in name only." At least that is the course outlined for her and her husband, William Lawrence Winston, who were married Thursday at Tia Juana. Advice to this effect was given the screen actress yesterday by her attorney, S. George Ullman of Los Angeles, when appealed to by the actress after she had read reports that her marriage to Winston might be construed as bigamous in California in view of the fact that she has not yet received a final decree of divorce in this State from her first husband. Ullman, who was the adviser of the late Rudolph Valentino under the late film actress early next year. The commissioners were of the opinion the property might be useful as a central point for handling of health matters. They will invite members of the City Council to accompany them on the inspection.

BYRD DEPARTS ON OCTOBER 20

Party of Twenty to Ship
from This Port

Will Sail on Norwegian
Whaler Larsen

Vessel Equipped With High
Powered Radio

Commander Richard E. Byrd with twenty members of his party will sail from Los Angeles Harbor about October 20, next, aboard the Norwegian whaling steamer C. A. Larsen on the first leg of his Antarctic expedition, it was announced yesterday by representatives of the Ross Sea Whaling Company, operators of the C. A. Larsen. The C. A. Larsen, largest vessel under the Norwegian flag, is of 14,800 deadweight tons capacity and is operated each Antarctic summer in the Ross Sea as a factory ship and floating base for the fleet of small "killer" whaling steamers of the Ross Sea Whaling Company. Presence of the C. A. Larsen in the Ross Sea within 10 degrees of the South Pole during the operations of the Byrd expedition will add a substantial safety factor, whaling officials yesterday pointing out that she has one of the best radio installations afloat and will thus be in constant communication with both the Byrd expedition and the outside world.

LONG-DISTANCE SET

The C. A. Larsen has a short-wave sending set of 32.5 meters with which she daily communicates with the Norwegian government station at Bergen, 14,000 miles distant from her base in the Antarctic. In addition to standard radio equipment she has a broadcasting plant, with which she daily communicates weather forecasts and whaling information to her fleet of "killers." The C. A. Larsen and her equipment are being made available to Commander Byrd by Magnus Konow, world-famous yachtsman and chief owner of the Ross Sea Whaling Company, who is a close personal friend of the explorer. Norwegian whaling officials at Los Angeles Harbor yesterday said tentative plans provide for the C. A. Larsen to take aboard the planes, portable houses and other equipment of the expedition at Norfolk, Va., next month and then proceed to this port for bunkering stores, where Commander Byrd and his party will board the vessel.

AT BASE IN DECEMBER

The C. A. Larsen is scheduled to arrive at the advanced base of the Byrd Expedition on the shores of the Ross Sea about December 1, according to the expedition's plan. The ship will stop en route at Paterson Island, on Stewart Island, where is located the supply base of the whaling company. The ship will then proceed to the advanced base, which is located in 47° south latitude and from there to the Ross Sea through the 200-mile ice barrier which surrounds the Antarctic region.

Forty days are sometimes required for a vessel to fight her way through the ice barrier, it was explained yesterday by Captain Presthus, veteran Antarctic navigator, the minimum time for the difficult passage being ten days, Captain Presthus said. The power of the C. A. Larsen in crossing the barrier will prove of great value in expediting Commander Byrd's schedule.

Both the C. A. Larsen and the 12,450-ton whaler Sir James Clark Ross, will be operating in the Ross Sea whaling grounds between latitudes 70 and 80 with the "killers" from late December until the whaling season closes in February.

The C. A. Larsen will then return to Los Angeles Harbor in early April, 1929, when she is scheduled to bring back first pictures of the Byrd Expedition. The advance guard of the expedition will sail for the Antarctic this morning aboard the auxiliary ship City of New York, ex-Bampano, while the third ship, the tug Chelsea, will leave the east coast shortly before the C. A. Larsen sails from this port.

"NOR CANCEL HALF A LINE OF IT"

Long Years of Penalty May Requite Brief Hour of Crime;
Clerk's Quick Repentance Powerless to Avert
Consequences of Slip from Rectitude

Even an hour is sometimes too late for repentance. Aaron Mattie, 27 years of age, is in a cell in the City Jail today because, police declare, he "went crooked" for sixty brief minutes. The fact that he restored \$25,000 which he is asserted to have obtained by forgery does not make the stone walls any less a prison or the iron bars any less a cage.

Next day he wrote to Thomas C. Deane, an official of the Bank of Italy, expressing his contrition and begging him to aid in getting him out of his trouble. He signed this letter, detectives assert, by the name used on the checks. Deane took the letter to Occidental officials, who called on the police for aid. Detective Lieutenants Posner, Dryden and Stewart of the forgery detail were assigned to the case. They traced the paper on which the letter was written to Mattie, they say, and yesterday placed him under arrest.

The letter to Deane was a frank avowal of guilt and an equally frank expression of remorse. It read: "Breast Unburdened
"Los Angeles, August 21.
"My Dear Mr. Deane:
"This is a confession. I write this to you because I know I can

She goes to court when late with apartment-house payment.

REALTY MEN BACK STATE SITE BONDS

Los Angeles Board Votes
Approval of Issue to be
Voted on Next Tuesday

By unanimous vote, the board of directors of the Los Angeles Realty Board yesterday endorsed the proposed bond issue to be voted on at the State primary election next Tuesday, which if adopted will authorize the board of supervisors to purchase a site for a State building in Los Angeles county. The resolution giving the endorsement also carried a recommendation to the supervisors that the site be acquired either in or adjacent to the Civic Center in Los Angeles.

Favorable consideration of the bond issue was given after attention was called to the fact that failure of the bonds to pass would result in the money necessary for the acquisition of land for the State building being taken from county tax funds to be raised by the inclusion of an item in the tax levies for sufficient money to cover such cost. While such a procedure might be a hardship on taxpayers, the cost of the retirement of the bonds, spread over a period of years, would be negligible.

The sum of \$1,250,000 already has been authorized by the State for the erection of a building in Los Angeles county to house the State offices. San Francisco some time ago donated land on which a State building was erected, and as a result conduct of State departments is much more efficient than where the various departments are located in scattered rented quarters, board officials pointed out in recommending support of the proposed measure. Further, the passage of the bonds would insure an economical expenditure of the public money in the purchase of the land.

The realty board directors also authorized an offer to be made to the supervisors to avail themselves, free of any fee, of the services of the appraisal commission in recommending to make an appraisal of the true market value of the sites submitted, thus insuring an economical expenditure of the public money in the purchase of the land.

BEACH MEASURE DEFENDED

Kitzmiller in Answer to Playground Commission
Denies New Draft of Ordinance Lacks "Teeth"

Flatly stating that the "teeth" have not been taken out of the draft of the proposed ordinance giving the playground and recreation department jurisdiction over city beaches, Assistant City Attorney Kitzmiller left to right, Lieut.-Col. J. Rodriguez Diaz, Col. M. Garcia Granados, rather than weakened. The Playground Commission had refused to approve the draft on the ground that it is not as strong as the original. Commissioner Rittenhouse asserted the "teeth" had been removed.

Kitzmiller took both the first and second drafts of the measure to the playground department yesterday and pointed out to Commissioner Rittenhouse that the second draft is stronger and clearer than the first. Section No. 1, he said, which gives the playground department possession and control of all city tidelands, has been strengthened with the word "jurisdiction" added to possession and control.

Section No. 1, he said, which gives the playground department possession and control of all city tidelands, has been strengthened with the word "jurisdiction" added to possession and control.

GAMBLING SHIP IN WEST BASIN

Government Agents Test
Gaming Devices

Evidence of Dishonesty Not
Revealed

Bond of \$200,000 Will be
Price of Release

After almost twenty-four hours of work on the part of a prize crew composed of representatives of the United States Marshal's office, Coast Guardsmen, and veterans of San Pedro's waterways, the gambling ship Johanna Smith was towed slowly to a new and ultraspectable mooring in West Basin last night.

For almost twenty-four hours representatives of the marshal's office, United States Marshal's office, Coast Guardsmen, and veterans of San Pedro's waterways, the gambling ship Johanna Smith was towed slowly to a new and ultraspectable mooring in West Basin last night. The ship's crew had disabled the winches before the ship was taken, and the captors refused to ship cable and abandon anchor and all.

OPERATORS EXAMINED

Yesterday afternoon the work was rewarded by success and the Johanna Smith was brought in to be "frisked" by government agents. Every piece of gambling apparatus on the ship will be examined to see whether the games were conducted fairly. It was stated yesterday at the United States Marshal's office. A preliminary examination showed nothing that indicated crookedness in the apparatus, it was said. However, it was indicated, other actions might arise out of the filing of the libel suit against the ship. Under the present action, which includes an order to show cause, and is scheduled to be heard before United States District Judge Shipman on September 10, the government seeks to seize and sell the ship, its boilers, machinery and all furniture, gambling devices and apparatus on the vessel. The action was brought under the provisions of Section No. 325 of the Federal Code, Revised Statutes, No. 4371, made a law in 1793 and practically in disuse, but in effect. After several weeks of research the section was found by Asst. U. S. Atty. Redwine and Peterson. It was said to be the only act that could halt the activities of the gambling ship, but its application may lead to other actions, it was indicated.

VIOLATION CHARGED

It is charged that Albert Howard, said to be the owner of the ship, obtained a license to operate the ship for coastwise trade in February last, but has not used the ship for that purpose, but for gambling. After an all-night session on the ship, Deputy Sheriff J. H. Smith and his assistants returned to Los Angeles yesterday, while others remained on board in charge of the vessel.

Although a bonding company communicated with the United States Attorney's office, no effort was made yesterday to release the ship from the attachment under the libel action by placing bond. The value of the ship was set at \$100,000 and the bond would be twice that amount, or \$200,000. This bond, it was stated, would be given upon the promise that the ship be not used for gambling until a court decision should determine the legal status of the ship. The bond will have to be filed with United States Marshal Bittel, who so far has not received such a bond.

AUTOIST BECOMES ILL AND CAR HITS WOMAN

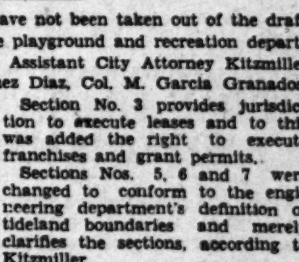

While Morris Friedman, who lives at 4263 South Western avenue, was turning his automobile from Third street into Broadway yesterday morning he was seized with a fit of sickness. His car veered from its path and struck Miss Miriam Stevens, 26 years of age, 534 Wheeling way. Miss Stevens was treated at the County Street Receiving Hospital for severe body bruises and cuts. When Friedman was revived he said he could not remember what had happened.

OKLAHOMANS TO PICNIC

The Oklahoma State Society plans a mammoth reunion picnic for Sycamore Grove on Saturday, September 1, it was announced yesterday by the organization's president, Milton Bryan. All Oklahomans resident or visiting here are invited to attend.

AUNT HET

BY ROBERT QUILLLEN

"I know I was hateful, but Ella didn't want me to try on her hat one day, an' when the Aid Society was makin' up a surprise package for her birthday I slipped in a fine-tooth comb."

The Lancer

By Harry Carr

LET us give credit to whom credit is due. In such a tangled problem as prohibition it is very difficult to devise a plan upon which everybody will agree. Al Smith has accomplished this miracle. Everybody agrees in opinion as to his plan. Everybody agrees that he is wrong.

THE GAMBLING SHIP

Whenever the State Legislature gets together in Sacramento enough foolish laws are passed to fill a library; but they seem to leave undone most of the things they ought to do. For instance, the gambling ship anchored off Long Beach. It is an absurd breakdown in our legislative system when it is possible to anchor a ship offshore and do just about everything forbidden to folks on dry land.

HISTORY THAT IS DYING

I think the only way to rouse my old friend, John Mott, to his literary duty is to denounce him publicly. To denounce him for not writing the history of the Sepulveda family, of which he is a distinguished member. The priceless historic material that is dying on its feet sends me home sorrowing every time I talk to Mr. Mott.

GOLDEN DAYS

Sepulveda brought to old-time California the pride and glory that was Spain's. Out here in this new country they set up a cattle kingdom. I imagine that of all the old California estates there was no other of such regal pride. The story of this family is the story of the golden days of old California. No family suffered more from the greed and trickery of the gringos.

GRINGO TRICK

Only the other day Mr. Mott was telling me a charming but tragic story of his grandfather. One day the old don was riding proudly down Main street on his magnificent horse—in town from a periodic visit from his rancho. A poor Mexican woman with two children ran out into the street and threw herself on her knees before him. He took her to the sidewalk and heard her plea. Her husband was in jail and needed \$500 to get out. The old don never carried any money; they never did. He called out to a gringo merchant and told him to give the woman \$500. Just as "a matter of form" he signed a memorandum—which turned out to be a note compounding the interest daily.

PUNISHED A KEEPER

Another time the old don found a man peeping into the women's bathing pool, which was then on Buena Vista street. Ladies at that time wore bathing suits that came to their toes. Nevertheless the old fellow's sense of propriety was offended. Although the offender was a man of some importance in the community, Don Jose rode up and down the length of Main street, lashing him.

(Continued on Page 2, Column 4)

Go To Church Sunday

First Congregational Church

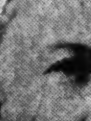

Hope Street at Ninth
Lloyd C. Douglas, Minister

At the eleven o'clock service, Dr. Douglas will discuss the popular moving picture

"THE GODLESS GIRL"

It has been a fixed policy of this pulpit to avoid controversy by being a producer of the recognized culture, refinement, scholarship, and good intent of Mr. De Mille, will continue to release to the public a play in which passionate ignorance, backwoods prejudice, and slobbering sentimentalism strive to stir in a wilful trifling with the most seriously important question now addressed to the American people, it is time the pulpit had something to say in defense of an intelligent appreciation of the Christian religion. . . . We expect to present our sermon, tomorrow, in a tempo and temperature consistent with the indubitable indignation.

Temple Baptist Church
PHILHARMONIC TEMPLE AUDITORIUM
N. W. CORNER PERSHING SQUARE.

Jardine, F. O. Johnson, J. R. Milbank, Johnson, Mrs. Laura Taylor, Kelley, William Llewellyn, Herbert C. Stone, Perry Whiting.

SHAW LOSES PLEA TO BAN LITERATURE
Injunction Asked Against Political Welfare League Circular Refused

Two attempts made yesterday by Councilman Shaw, who is a candidate for Supervisor against J. H. Bean, to prevent the circulation of pamphlets by the Political Welfare League and which called him a "tool of private interests," were frustrated.

A young boy was released by the prosecutor after he had been held by detectives for distributing the literature at the same time he delivered a local publication. Following this, Shaw requested an injunction to stop circulation of the literature, but was denied it by Presiding Judge Hahn.

Shaw first filed a suit for the injunction on the grounds that the Political Welfare League was circulating a pamphlet charging that he is a "tool of private interests" and backed by Kent Parrot, Al Marcoe and others. Temporary action then was asked of Judge Hahn, who ruled that the court may not interfere in a political campaign by issuing an order without hearing both sides.

B. C. Edward Ross, assistant manager of the delivery organization employed to deliver the pamphlets, told the City Prosecutor that 400 boys had delivered 200,000 copies of the pamphlet in question and after seeing a copy of the pamphlet, he was transferred to the police station where he was reported to have been dropped by Dr. Lickley.

WOOD APPOINTED AS CHIEF
Larry Wood, Hollywood real estate broker, will be one of the twenty-five vice-chairmen of the central division of the 1928 Community Chest campaign, according to an announcement made yesterday.

This division is the one responsible for getting the large subscriptions with each vice-chairman a point of solicitation.

Mr. Wood has been on tour since July 1 and his itinerary includes sixty-two cities, he said. Before entering solicitor he was steamfitter by trade and later went into the newspaper advertising business.

Mr. Reynolds also will speak Sunday night at the Open Forum in Lincoln Hall. From here he goes to Denver.

SENTENCING OF MORRISSEY PUT OFF FOR WEEK
Will Morrissey, who was either the hero or the villain of the real-life battle at the home of George Beban last week when he and Tom Mix traded wallops, will not know whether he has to pay a fine, serve a jail sentence or go free on a charge of drunkenness until Wednesday at 2 p.m.

Morrissey was convicted Thursday of "drunkenness as charged," and was to have been sentenced yesterday, but Municipal Judge Gibbs postponed the sentence when Attorney Charles W. Cradick, representing the song-and-dance man, filed motion for a new trial.

In the meantime Middle Miller, Morrissey's wife and the third party involved in the fracas at Beban's home, was acquitted Thursday of a charge of being intoxicated at Avenue 17 and the Speedway at Venice.

It is possible that Cradick, in his motion for a new trial, will make capital of the same technicality that freed Morrissey from the charge of "drunkenness as charged," and "put the boots" to Will and "punched Middle in the eye," will face a charge of assault and battery next Thursday.

G. B. GRINNELL, Naturalist and Author, Here
George Bird Grinnell, naturalist of New York, who was awarded the Roosevelt gold medal in 1925 for service toward the preservation of America's animal life and the soon will celebrate his eightieth birthday, is a guest at the Ambassador.

Mr. Grinnell has written several books, including "The Red Rover," "The Fighting Cheyenne," and "The Fighting Sioux." He is accompanied by his wife and will remain here one week.

GLENDALE SCHOOL IN FOOTHILLS TO OPEN FOR TERM
On September 24, two weeks after the opening of the public schools, studies will begin at the Glendale Foothills School, according to an announcement made yesterday by Dennis S. Downes, head master of the institution.

"Many of our summer season pupils will remain for the winter term, a large percentage of the former students have made application for entrance in a pamphlet and it is expected that all vacancies will be filled by the beginning of the fall term."

Mr. Downes, who returned to Glendale yesterday after a visit to his father, W. H. Downes of Boston, Mass., has been in charge of the school since it was transferred to its new site on North Benom Avenue.

The Foothills School is for boys and girls of elementary school age. Rhythmic and other outdoor activities are features of the institution.

Scientists who have looked up the pedigree of the orange say that it was formerly a berry and that it has been in the course of development for 7000 years.

MISSOURIANS PLAN HUGE RALLY
The Los Angeles County Missouri State Society has made preparations to entertain 25,000 former residents of Missouri at the annual summer picnic to be held at Bismarck Grove tomorrow.

The entertainment program will comprise a list of musical artists, including Dixie Field, singer, according to an announcement by James A. Lang, president, yesterday.

Among announced speakers will be Charles E. Cole, formerly of St. Louis; Robert E. Callahan, Walter S. Danberg, Judges Wilson, Georgia Bullock and Gates; F. M. Ruble, Charles H. Kelley and Col. Alfonso Fonseca.

PLEA GOES TO COMMITTEE
The City Council yesterday referred to its Public Works Committee a petition from the Los Angeles Chamber of Commerce requesting the improvement of Stoner Avenue between Iowa and Nebraska avenues.

YOUTH MEETS DEATH UNDER TRUCK WHEELS
Sebastian Zuccola, 7-year-old son of Mr. and Mrs. Rafael Zuccola of 440 Seventeenth street, San Pedro, was killed almost instantly yesterday afternoon when he fell under the wheels of a truck driven by Joe Collier, 470 Fifth street, San Pedro. The boy had climbed on the truck without the driver's knowledge in order to get some fruit. An inquest will be held on tomorrow.

OLD-TIME RESIDENT OF PASADENA DIES
Elmer C. Packard, 62 years of age, died from heart trouble last night at his home, 1133 Meridian street, Pasadena. He had been a resident of Pasadena for forty years. Packard was born in Johnstown, Vt. He leaves his widow, Mrs. Dixie Packard, a brother, Ernest Packard, and a sister, Mrs. Florence Morse.

DUO ENTER TALKIES

COMEDIAN WILL QUIT FIRM; SHUMATE PROMOTED

Unaccustomed as they are to public speaking, Fay Wray and Gary Cooper are to emerge in the talkies, if present plans reported as being practically set at Paramount studios are carried out.

From the same authentic source we learned that the picture in which these dialogue and sound effects will be used has a story called "Rodeo Romance," written by Doris Anderson. The story is a western, and will be started some time in October.

Charlie Murray to become free lance. Quite surprising was a piece of news we heard at First National yesterday, when it was learned that Charlie Murray, who has been considered one of the best of the First National had, and whom the company admits is one of its biggest money getters, has severed connection with the concern, and will henceforth free lance.

Murray has been under contract to First National during the past three years, during which time he has appeared in a number of successful pictures. The term of his contract is up, and while no reason could be discovered why it should not be renewed, it was stated that company and star had decided to part.

However, the two are on good terms, and it is understood that Murray will continue to work for First National whenever suitable stories are found for him. At other times he will accept offers from other concerns.

Shumate Signs Contract. Harold Shumate, whose excellent record as supervising producer for Sam Sam and Gosham Productions has created favorable comment, yesterday was named associate producer by Sam.

The film official will assume general producing chiefdom, which reports that it has an excess of \$500,000 to be spent in the coming season, but he will also take charge of Bristolphone, the sound department of the Gosham program of the year. Bristolphone has its laboratory in Waterbury, Ct., and operates in association with the Sonora Phonograph Company.

Shumate leaves for New York early this week to synchronize his latest production, "Times Square," at the laboratory, and also to accompany equipment back to Hollywood for the Gosham studios, headquarters of the Gosham Productions.

Arthur Lubin, who played the lead in "Times Square," already has gone east to appear on Broadway in a new play, and will do the sound sequences of the picture in New York. Alice Day, who has the female lead, will leave shortly. Casey Robinson, who wrote the dialogue as well as titles for "Times Square."

Jannings in Talks. Those admirers of Emil Jannings who have been wishing that they might hear him in the talking pictures, but who have been fearing that they never would do so, will be pleased to learn that Jannings has been studying English to such good effect that he will be able to speak lines in "The Sun of the Fathers," which Ludwig Berger is directing for Paramount.

It is said that the story has been changed slightly to allow Jannings to play the role of a German, so that his accent, of which little remains, will appear entirely natural.

Universal Supervisor Vacations. Having completed the scenario writing and the supervision of Glenn Tryon's Universal feature, "Can Be Done," Joseph Franklin Poland considers he owes himself a vacation, and he is spending a few weeks in Catalina Island.

Mickey Neilan's Sound Picture. Would it be possible for a lively Irishman to keep out of the sound pictures? Not at any rate, for Marshall Neilan, one would say. Now comes the information that

Neilan and W. Scott Darling, well-known screen author, have been secretly collaborating on the writing of an original story, the title of which they refuse to divulge. Neilan is to produce and direct in a talking picture with an all-star cast.

Dorothy Gish on Stage. Just in case you haven't heard anything about Dorothy Gish for some time and are pining for news of her, I take pleasure in informing you that the lively Dorothy has been appearing in the East on the stage in a comedy called "Young Love," in which her husband, James Benning, has the leading role.

Excellent reports reach us of the success of the screen star in her new realm of expression. The play was given a tryout a week or so ago in Rochester and is headed for New York.

Hiers a Traveler. Walter Hiers, "fat comedian," has traveled more than 100,000 miles and made personal appearances in 200 theaters within the past five years.

Henry Duffy's "The President" is the latest in a series of comedies by Duffy. The play is a comedy called "The President," in which her husband, James Benning, has the leading role.

**ORANGE CROPS
GIVE PROMISE**

Expert Predicts More Yield
Than in 1926-27 Season

Southern California Groves
to Deliver Increase

Report Covers Districts and
Expected Returns

REDLANDS, Aug. 24.—There is every indication that California will produce a citrus fruit crop the coming season that will be as large as the record-breaking crop of 1926-27. This was the finding of W. H. Blodgett, field manager of the National Orange District, who has just returned from a survey of the citrus districts of the state.

His figures are based on the amount of fruit now on trees. He says climatic conditions will determine whether the fruit grows to the average or better size and that if it does and there is no loss from other reasons, it will be a big crop.

FORMER RECORD CROP
The 1926-27 crop totaled 37,163 cars of oranges and grapefruit and 13,437 cars of lemons. Oranges for that record year were produced to the extent of 491 cars in Northern California, 769 cars in Central California and 48,933 cars in Southern California.

Northern and Central California will be about the same as those of 1926-27, Blodgett believes. The Southern California situation for the new crop has been surveyed by districts.

The Redlands and Highland districts will produce about the same sized crop as in 1926-27. The Redlands, Bloomington and Pomona districts will have a navel yield about 90 per cent as large as in 1926-27. The Valencia yield appears to be 10 per cent larger.

West end districts, Claremont, Pomona and La Verne will have a larger yield than two years ago as the 1926-27 season was particularly large in those sections. Covina, Glendora and Puente districts will have a larger crop which will equal the best records of former years.

RIVERSIDE OUTLOOK GOOD
Riverside county districts including Riverside, Corona and Hemet will have crops comparing well with those of 1926-27, Blodgett believes. The former from the Escalante section, where the M.O.D. is organizing a new house, and the latter from the China Vista district.

Orange county districts will have a uniformly large crop with the total shipments depending largely on the size problem. Good growing weather during the fall will make the Orange county crop 10 per cent larger than that of 1926-27.

San Diego county districts report large crops of both oranges and lemons, the former from the Escalante section, where the M.O.D. is organizing a new house, and the latter from the China Vista district.

**Lions to Have
Day at Races**

INGLEWOOD, Aug. 24.—After a conference with officials of the California Air Race Association, it was announced at today's meeting of the Inglewood Lions Club that the suggestion of the local organization, which will sponsor it, Thursday, September 13, will be observed as Lions' International day at the National Air Races and Aeronautical Exposition.

Every Lions' Club in the United States, Canada, Mexico and foreign countries will be extended a special invitation to attend. Clubs in cities which are observing the day at the various cross-country air derbies that will end here are being requested to select pilots to bring with them. The day will be held at the great gathering here, to be read at a luncheon to be held in the exposition building.

At this luncheon, according to the promise of Dudley M. Steele, contest chairman, and Cliff Henderson, managing director of the California Air Race Association, Art Goebel, who recently broke the world's record for a transcontinental nonstop flight, and who started this journey from Mines Field, Miss Amelia Earhart, and many other famous flyers as well as high army and navy officers will be guests of honor.

**JUDGE TO DECIDE ON
POINTS OF ARREST**

SANTA ANA, Aug. 24.—Presiding Judge E. J. Marks of Superior Court is scheduled to decide at 10 a.m. tomorrow whether James Flores, H. Primrose and Roy Pollock are being held illegally in the County Jail by order of Police Judge G. E. Neasekemper of San Clemente. Attorney C. A. Jacobs, of this city, filed a petition with the court yesterday for a writ of habeas corpus in the case of Flores, charging that he was arrested at San Clemente on the 11th inst. and was sentenced to serve 250 days in jail as an alternative to paying a \$250 fine, without having been arraigned or given a trial in any court. The same situation is said to apply to Primrose and Rosa Martinez, who were arrested with Flores on a liquor charge by Police Chief Forrest Eaton of San Clemente.

BOTTLE BRINGS CASH

Ten Dollars Paid for Return of
Message Brought in by Sea

NEWPORT BEACH, Aug. 24.—Ralph Clingwald, 539 Magnolia avenue, San Bernardino, today received a \$10 bill as his reward for finding the first bottle thrown into the sea from the ship Weldon, which sailed from here on June 3 in the annual Newport Beach-Honolulu race.

The bottle was thrown overboard on the second day out, June 4, and was recovered by Clingwald at South Jolla. Twelve bottles in all were thrown into the sea, each of which is worth \$10 to the finder. The award is sponsored by the Chamber of Commerce here.

**EDISON EMPLOYEE COMMENDED
Compton Lineman Given Insull Medal**

Life-Saving Action Brings Honor
F. B. Lewis (at left), vice-president and assistant general manager of the Southern California Edison Company, plans Insull life-saving medal on Fred L. Jones, Edison lineman of the Compton district.

**PARENTS
PROTEST
SCHOOL**

Pasadena Citizens Make
Charges Against Cleveland
Elementary Building

PASADENA, Aug. 24.—That the Grover Cleveland Elementary School on West Washington street is a fire trap and its plumbing and ventilating facilities are inadequate are among charges made to the Board of Education today by parents and representatives of the Arroyo Seco Improvement Association.

Andrew Fabrin of 606 Palisades street, representing the improvement association, and Mrs. F. J. Nichols of 708 West Washington street, were the spokesmen for the delegation.

Petitions signed by 130 parents asking that the Mexican children be sent to Mexican schools, were filed with the trustees. It was stated that some of the classrooms measure only eight by ten feet and that children of different races and colors are forced to sit together.

Mrs. Nichols declared that there is no window in the girls' lavatory and that one small electric light provides the illumination. When Mrs. Nichols said to the trustees, "Come down to the school and see for yourselves, not as a board, but as humans," Trustee N. P. Moerkley declared, "That remark was uncalled for and your statements are false."

Fabrin displayed a letter from Fire Chief Ernest F. Coop advising that no firemen would be held in the Cleveland school because of the fire danger. "In spite of this warning," declared Fabrin, "entertainments were held."

**City Attorneys
to Investigate**

GLENDORA, Aug. 24.—Resolutions attacking the inequalities and differences in the public improvement acts now in effect in this city, which were adopted by the City Council, will form the subject of an investigation by the association of city attorneys, following a request from the Glendora Realty Board to the city administration that the city's legal department place the matter before the attorneys' association in order that such differences be eliminated. The resolution points out that such differences create unfairness and loss to property owners and administrative officials. The report of the attorneys will be submitted to the legislative committee of the California Real Estate Association and by the committee to the State association at its annual convention in Sacramento in October. The California Real Estate Association will be asked to include the recommendations of the convention in its legislative program to be presented to the next State Legislature.

CITY GETS OWN WATER

Monte Vista Taps New Reservoir
And Gets New Pipe System

MONTA VISTA, Aug. 24.—This city, dependent for years upon Pomona for its water supply, today took complete and independent system, but gained greater protection against the fire hazard, and agriculturists have been assured more abundant water supply for irrigation.

The new reservoir and water system voted some time ago by bond issue is complete and the "cut-over" from Pomona water lines to the community's own system was made at noon today. Several additional fire plugs have been installed. Construction of the large reservoir has given abundant pressure.

TALBERTS HOLD REUNION
Talbert, Aug. 24.—Thirty-five relatives were present at the Talbert family reunion held at the home of Mrs. and Mrs. Sam Talbert in honor of Miss Lois Miller, cousin of Mrs. Talbert, upon her return here from a trip to Washington.

**LONG WALK HITS
DR. MICHELSON**

Recent Illness of Scientist
Given Full Explanation

Relapse from Operation Idea
Not Founded on Facts

Forced March Occasioned
Cold Through Exposure

PASADENA, Aug. 24.—The recent illness of Dr. Albert A. Michelson, which confined the Chicago scientist in his room in the Hotel Maryland for several days, resulted from a "forced march," which the light-wave wizard made from a remote spot in the Arroyo Seco to this city, it was revealed today.

Dr. Michelson, who is almost entirely recovered from the illness, which was supposed by his friends to be a relapse following a major operation which he underwent, a few weeks ago in Chicago, was motivated to the upper Arroyo Seco to pursue his hobby of sketching and painting natural scenes. When the driver of the car failed to return for him at a prearranged hour, the scientist walked the entire distance of two or three miles to the hotel.

As Dr. Michelson is 70 years of age and had not regained his strength following the operation, the walk over the rough canyon trail was too much for him and he contracted a cold, which affected his digestive system.

**STOUT BUSH
SAVES LIFE
OF WOMAN**

Slide Down Mountain
Side Toward Deep Canyon
Stopped by Hardy Growth

AZUSA, Aug. 24.—A lucky grab at a stout bush growing on a steep mountain side saved the life of Mrs. G. S. Gunderson, wife of the foreman of the fish hatchery at Sparks, when she slipped over the edge of a cliff.

Mrs. Gunderson, who was on a picnic with her husband and two children, slipped over the edge of a cliff while looking for a better view of the canyon. She was caught by a stout bush and saved from a fall of several hundred feet.

Mrs. Gunderson, who was on a picnic with her husband and two children, slipped over the edge of a cliff while looking for a better view of the canyon. She was caught by a stout bush and saved from a fall of several hundred feet.

TRUCKS TO CARRY PIGEONS

ONTARIO, Aug. 24.—One hundred and fifty of the prime loft pigeons raised here by Capt. Ray R. Delhauser, in charge of the pigeon service of the United States Army during the World War, today were sold to the Santa Ana Ice and Cold Storage Company. The pigeons to be used on company trucks as messengers for relief trips to distant points in Southern California.

Management of the ice company has for a long time maintained a few carrier pigeons which were carried on the long-distance trucks. They have proved so practical that the company will equip all machines with the birds, according to Delhauser.

In one instance, some time ago, a truck became stranded in Imperial Valley. The driver wrote a message and attached it to a pigeon's leg and released the messenger. The pigeon flew to its home loft and within a short time spare parts for the truck were on the way. Telephones are not always available when needed, according to the company management, and the winged messenger takes the place of the call by wire. As high as \$200 was paid for a pair of his pigeons, Delhauser reported.

FALL RESULTS IN DEATH

Investigation Seemingly Discloses That Woman
Fractured Skull in Fainting Spell

SAN DIEGO, Aug. 24.—Following a belated investigation by police into the death of Mrs. Ines Poole Robertson, 43 years of age, found dead in the kitchen of her home Wednesday night, officers concluded today that the woman accidentally fell, injuring herself to the extent that death resulted.

Investigation into the woman's death was renewed when Dr. J. J. Shea, county autopsy surgeon, declared she died of a fractured skull. Hack Berg, detective sergeant, discovered a bloodstain on the edge of a radio table which had been in a position near where the woman fell to the floor. It is thought that she struck her head fracturing her skull and rendering herself unconscious. She is later believed to have regained consciousness and to have crawled to a position about ten feet distant on the kitchen floor, where her body was found.

Relatives told Berg that the woman was subject to fainting spells and had attacked. Coroner Kelly said today that he was convinced with police that the woman was not the victim of foul play. He said, however, that he was not definitely concluded whether an inquest will be held.

Mrs. Robertson was 43 years of age and was a native of California. She was married to a man who was a member of the police force. She was found dead in the kitchen of her home on Wednesday night.

Company Form on Sand Machine

SAN FERNANDO, Aug. 31.—A \$50,000 corporation has been formed here to manufacture and market sand hydrolator, the homing Sam Rucker, 525 Alexander street, was announced today. The corporation, known as the Concrete Manufacturers' Equipment Company, is headed by Rucker as president, while the officers and directors include Dr. Ralph Witten, W. T. De George Schelling, Frank Schmitt, Dr. Charles Peters, D. C. Rucker and W. L. Rucker, the latter of Los Angeles. The new machine is said to control the water content and volume of the concrete, so that one man can do the work of at least three.

The machine consists of an upper and lower hopper, and an arrangement for spraying the sand and water is uniformly actuated by jets of water and the waste water drains out through a pipe attached to the side of the lower hopper. On the side of the lower hopper is a dial and a bell, which is specified weight of sand is in lower hopper the dial is turned to bell rings. The sand is then dumped by the operator.

Military Burial for Indian Soldier

SANTA MONICA, Aug. 31.—Thomas O'Brien, famous Indian scout, under Gen. Nelson Miles in his campaign against the Indians, was given a military funeral today at the Soldiers' Home at Santa Monica, friends and associates of the 78-year-old veteran, who arrived in this city for nearly a quarter of a century, attended the service.

The old pioneer leaves his wife Mrs. Mary E. O'Brien, police matron at Santa Monica; two sons, Tom O'Brien, the actor; parson and a baseball player, and a daughter, Mrs. Margaret Bivens. A eulogistic guard escorted the body to the

REGATTA GAINS WIDE PUBLICITY FOR HARBOR

NEWPORT BEACH, Aug. 24.—That Newport Harbor and Orange county will receive a large number of national and international regatta as a result of the International Starboard regatta here 31st. to September 7, is revealed by inquiries coming to the Newport Harbor Chamber of Commerce. Secretary O. C. Macleod said that dozens of newspapers and magazines, row syndicates and newspapers will send representatives.

ROADS BEING OILED

AZUSA, Aug. 24.—Crews of oiling men are oiling the new road to San Gabriel Canyon, according to E. R. Baldwin, secretary of the Chamber of Commerce, who returned from a trip to the hatchery at Symmes Flat today. The oiling project has reached the most halfway to the dam site, which is located in the North Fork.

FITS TO ADDRESS BUSINESS

GLENDORA, Aug. 24.—Lester C. Pitts will address a special district meeting of the local Chamber of Commerce this evening at 8 o'clock. It has not been announced yet where the meeting will be held. Cooke said. The session will mark the opening of fall activities.

YOUR BABY AND MINE

By Myrtle Meyer Eldred

Mrs. Eldred will be glad to answer all questions pertaining to babies and children, and to discuss and self-analyze the various phases of child-rearing. She will stamp a personal reply.

This department is offered in this column to parents and mothers who are unable to find the child from whom they want to learn the cause of the crying, the nursing mother, constipation, eczema, colic, and the various ailments of the baby.

For the purpose of this department, the following ailments are included: thumb sucking, nursing, and weaning habits, periods of nursing, and weaning, teething, colic, worms, and various trachery children, prunings, and various ailments of the baby.

Before asking a question, please send a stamped, envelope for the letter you need. If your particular problem is not covered in the above list, Mrs. Eldred will be glad to give you a personal reply.

**THE IMPORTANCE OF WATER
FOR THE INFANT**

"How much water do I have to give my baby?" "Doesn't he drink like I and I have a fearful time making her drink it?" Sounds familiar, doesn't it?

There isn't any answer to this question any more than there is to any question which perplexes mother. The baby has fluid needs, but some babies have these needs more than others. The feedings, and that they actually do not need as much water as other babies. If the baby is gaining properly, seems disinclined to take water even when offered between feedings in teaspoonful amounts and at stated intervals, stop worrying about it. Later he will get orange juice, but he will still get water, he will get, no doubt, diluted cows' milk in addition to his breast feeding, and he may acquire a taste for just water which he doesn't possess first.

HOW TO FEED WATER

Of all the mistakes young mothers make the most popular one is training a baby to take water by adding sugar to it. Sugar in a food is a good thing, but in water it is extra sugar, and sweet water as their thrush quencher is just about a dead loss.

Cooled water will be more palatable to the baby than warm water, all ways, and if the water is boiled and served in a covered glass jar, it won't be too cool for the baby's tiniest baby. If the water is warm it should be warmed to a comfortably hot temperature, not sufficient to burn the sensitive lips and mouth, but just warm. If the baby is being given this for colic, it is imperative that it be warm, otherwise half of it is valueless.

Both breast milk and cows' milk contain a very large percentage of water. Diluted cows'-milk formula, and water added to the formula, are the only ways in which a child

just at first; as it may be later when the child is on more concentrated formulas. The daily fluid needs of a baby are about to be about two and one-half to three ounces for each pound of weight. This amount lessens as the child grows older and two ounces per pound is about right. If you figure the formula correctly you can see that these needs are quite well satisfied. The amount of water to three cups of water daily will be about all most children need, sometimes less.

The baby who eagerly takes ounces and ounces of boiled water is almost always a badly fed baby who is hungry and empty and finds the warm fluid satisfying to his raw, wind-whipped stomach. It is wise mothers who have this experience to look to their formulas, or the amount of breast milk, or the amount of milk they are most likely to supply. They are more likely to discover that a scanty diet is responsible for this water drinking.

**ASSERTED
WOMAN RE-
FORMER**

**Municipal Judge Inflicts
Heavier Sentence Than on
Men Companions**

Mrs. Mary Ostrow, Mrs. Lillian Hankin and Mrs. Rose Elftman, asserted Communist convicted by jury of violation of two counts of the city ordinance covering solicitation of funds for charity, were each sentenced to pay a fine of \$50 or to serve ten days in jail on the motion court yesterday by Municipal Judge Stephen J. O'Connell.

John G. Packard, defense attorney, for a new trial was granted on the fine count, which charged failure to give a receipt for funds collected on the ground that there was no evidence showing that any single amount collected exceeded \$100. All who were convicted applies only to a collection of more

than that amount. The motion for a new trial was denied on the second count, and Federal file no. 21 notice of appeal, on which Judge Shelton fixed bail of \$50 each. The second count charged failure to file a notice of intention to solicit alms as required by the ordinance.

The sentence was double that given to the seven men Communist Party members before Judge Julius Reed for the same offense. Testimony introduced by Deputy County Prosecutors Barnes and Hornaday of the women showed that they had been arrested because they accompanied the men in their efforts to collect funds for the "National Miners Relief Committee" and the "National Women's Literature" taken from women at the time of their arrest by the police Red squad under Detective Lieutenant Byrnes who denies the organization of a Communist society in the United States.

Wife of Mayor Convalescing

Mrs. George E. Cryer, wife of Mayor Cryer, was reported "doing very well" at St. Vincent's Hospital yesterday. She underwent an operation Wednesday for gallstones, the third operation of its kind in three years.

Mrs. Cryer will be confined to the hospital for at least two more weeks, hospital authorities said, unless unexpected complications develop. This is the usual convalescing period for similar operations.

SOUND AUCTION!

BRIDGE

by Wilbur C. Whitehead
The World's Greatest Authority...

Each day is published a complete hand presented by Mr. Whitehead. These hands may be played with cards by you, your spouse or other players. Fill in a story of your own and compare it tomorrow with Mr. Whitehead's play. Do this each day and carefully read Mr. Whitehead's explanation, and you will find that your knowledge of the game will progress rapidly. Complete your bidding and play with that of your friends and you may be championing.

THE SCOTE SEALER OF WEIGHS

& Dr Frank M's Coy
author of "The Four 10's History"

No. Bailey will receive orders, addresses or health card addressed to him, care of The Los Angeles Office.

YOUR DAILY WEIGHT

The Scote Sealer of Weights and Measures in California has just given out some figures which should be interesting to my readers who are trying to figure how to keep better figures. He finds that the people who put their weight most interested in watching their weight that they actually spend on an average of \$1 a year upon weighing themselves on the penny scales. This average doubtless holds good all over North America, and if this is so, we are spending over \$130,000,000 every year just to watch our weights go up or down. Doubtless, at least as many people are also weighing themselves on the free machines found in drug stores, and on grocery-store scales.

These weighing-machine statistics indicate clearly how much the average person is interested in health, and shows the general belief that a normal weight and good health are synonymous. While health cannot be accurately measured on the scales, our interest in watching our weights is nevertheless of some value.

The thin man is often underweight because of weak digestive power or because his energy was wasted through mental overwork, or because of worry or some of the other destructive and enervating emotions.

A fat man usually can't recognize, and stuffing with food usually does not help, but often makes matters worse. It is liable to bring on a series of disorders which may be difficult to cure. The use of cod liver oil, eating raw vegetables, etc., for fattening disease develops, it is never

pain so that sleep is almost impossible. Even the weight of body hurts them."

Answer: Your mother can remedy these callouses by treating her feet through soaking them in hot Epsom salts water. The treatment should continue about thirty minutes, keeping the water sensibly warm all during this time, handful of the salts to the ordinary quantity used in such treatments. This soaking will soften the corns, and when the skin all over the feet becomes normal in texture it is then advisable to vary the treatment by putting the feet alternately in hot and cold water, alternating with cold water to induce good circulation and strengthen the muscles of her feet and also the muscles which control the position of her feet will then perspire normally.

Q. T. C. asks: "In following your menu, when should one use the cod liver oil?"

A.: In my opinion, children over under 3 years of age, should be taking much of anything except milk. Certainly no solid food should be used until at least 2 years of age, and then only the nonstarchy cooked vegetables. If you give your child plenty of orange juice or other fruits with the milk it will be well nourished and require little additional food until he is about 6 years of age.

Q.: Mrs. C. G. asks: "Does too low blood pressure in adults ever prove serious?"

A.: Low-blood pressure means weakness, and, although many persons have had several fatal diseases develop, it is never

(Copyright, 1927, Republic Syndicate, Inc.)

starches and sugars will seldom produce any permanent effects in the gaining of healthy weight.

The thin man who is overweight because of glandular derangement, or innervation or insufficient digestive power, should be warned that overfeeding may only make him worse in every way. The problem of "girth" control is much easier and is almost entirely a question of diet and exercise. Although the fat man may have an abnormal tendency to avoidports because of improper functioning of his glandular system, his reduction of weight can be accomplished through vigorous exercise and the selection of the right kinds of food, and the use of these foods in whatever limited quantities are necessary to accomplish the desired result.

The thin man must be just as careful to use the right foods and should usually eat three meals a day, with good combinations of the right food. He should limit his exercises and learn emotional control.

The fat man should not use over meals a day, and should exercise in the gymnasium at least three or four times a week besides taking long walks.

When the rules are followed, the hand on the weighing machine may then show increased health each day, as it registers more for the thin man and less for the fat one.

QUESTIONS AND ANSWERS

Question: Q. L. writes: "Will you please prescribe a remedy for my mother's rheumatism. She is afflicted with solid callouses, and her feet never perspire. They ache and

thelless true that any general weakness which produces low-blood pressure is a forerunner of very serious disorders.

WILL FIGHT FOR BRINGS HAL IN PROBATE

Fraser Proceedings Open Until September 28, Next Date of Contest Hearing

Judge Beecher in Superior Court yesterday postponed until September 28, next, the proceedings for probate of the will of Earl Fraser, Ocean Park amusement man.

On that date the contest of Mrs. Lillian Fraser, the widow, will be heard. Mrs. Fraser had obtained from Judge Montgomery an order for an interlocutory divorce a short time prior to Fraser's death in an automobile accident a few weeks ago.

The will leaves legacies to Mrs. Sadie Busch and Mrs. Harriet L. Schachtner, and Mrs. Fraser will oppose its probate on the grounds that Fraser was unduly influenced. The two women were named in his divorce proceedings.

"Bertie" strings beads on silk fish-line, charging but 25 to 50 cents; 40 cents to 51 when knotted. She also cleans and dyes all fall hats in smart styles, dyeing and remaking them as well. Her address is 802 Baskin Shops.

Want to know how to reduce without abstaining from eating all of the good things you love? Well, then do what you can. Call up or go into Young's Market Co., corner of Seventh and Union and ask for a loaf of Basy Bread not forgetting to mention that you would like one of the free circulars which tells you in detail the why and wherefore of reducing easily by means of this remarkable bread.

There is no doubt that the result of partaking of Basy Bread will bring about your desired slenderness. All you do is eat a slice with each meal, you know, and it will make the way this simple method reduces you and keeps the pounds from coming back. Basy Bread really cannot be too highly recommended.

Eggs, milk, milk, butterless cake—

Since hearing about the excellent quality of the dry packed rabbits raised in Fontana, aren't you always of knowing more about the attractive home site where ranches and farms may be procured at a very small cost—and these ones may derive an income from the property while living in a most delightful way?

Raising chickens or rabbits is profitable in Fontana—the climate being particularly well suited to the purpose while the air and sunshine are glorious. Here, a good soil for farming purposes is particularly productive.

Oh, it's a lovely spot, this Fontana. Are you not looking for a place to live in? It is not up to you to investigate it and see for yourself the advantage of owning a home there from which real money may be derived.

Got down the following address to phone or call on: It's the Fontana Farm and Ranch Co., 1248 Palmiste St. of the Fontana El'd's (Thinity) 3094. Get in touch with them as soon as you find it convenient and make arrangements to visit Fontana right away.

Put a clam shell or small tin pan over the hole from which the water is drained from a freezer, and prevent clogging of the hole with ice and keep the cracked ice into a sack, and when ice melts nearly all the salt remains for use again.

Have you made any plans for the week-end—here's a suggestion if you need a place to break bread. Travaglin's San Clemente Cafe at San Clemente—the Spanish Village by the sea, just half-way between San Diego and San Clemente—this drive is a delightful one and Travaglin's Cafe is a charming spot at which to dine—the food being unexcelled. The atmosphere of the cafe is charming! Remember to visit Travaglin's Roma Rotisserie here in town. It's at 1801 West Seventh, the corner of Burlington. You may have dinner there or take

There are countless and diverse ways of using Quasi (pronounced Quash-lee), the famous Quasi dressing—all of which add to the food it is used in to a marked degree. Take the lovely grapefruit as an example—served with Quasi dressing, the blisponful of Quasi sweet sherry on the halved grapefruit being serving it! Delicious is no name for it—and it's good for you, too. Quasi cocktail. Quasi sherry makes a 100 per cent more delectable.

Indeed, all the sweet and cold fruits will give you a new idea. Italy's Vineyard Co. are splendid and have the government stamp of approval on them, did you know that? They are the only ones in the country flavoring for cooling summer drinks and what not? A copy of "Treasured Flavors," the free color book issued by the company, can be had at 1248 Palmiste St., Los Angeles will be of material assistance in helping you prepare with greater ease and less cost the most delicious and inviting repasts. Couldn't you write in today for the book? Make sure you don't overlook the address—won't you?

For a boil, the skin of a hard-boiled egg is the best remedy. Rub it over and relieve the soreness in two hours. Peel the egg carefully, wet the skin and apply to a sore. Rub it over the sore with a ball when first discovered and it will kill it at once.

Can you not visualize a salad made with the fresh fruits California has been so lavish in giving you? Need I say more? Well, yes, and topped with a generous amount of Butti-R-Naise, the salad dressing which is so superior to the proletarian mayonnaise—and easily made. You can make a Butti-R-Naise is made with pure creamery butter combined with egg yolks and lemon juice so there are vitamins galore in it as you can see. It's a good thing, you know, and oh my dear what it does spread it makes for the child

Use cup each of light-brown sugar, water and raisins; one-half cupful of lard; one-quarter teaspoonful of nutmeg; one teaspoonful each of cinnamon, cloves and salt. Boil all together three minutes; when cool, add one teaspoonful of soda, dissolved in a little water, and two cups of flour into the mixture. Use one-half teaspoonful of baking powder. Bake in a slow, but not too hot oven for 15 minutes. A little chopped citron to the above gives a delicious fruit-cake effect.

You won't forget to take your badly worn and tarnished silver to the California Finishing Co., 29 1-2 S. Spring (upstairs), to be refinished (will you)? They can remodel jewelry too, and repair it as well, charging reasonable prices and doing excellent work.

Egg shampoo—Beat the whites of two eggs as stiff as possible; take all of the egg, a handful at a time, and rub it in the scalp with a light circular movement of the fingers. Dry hair in the sun for twenty minutes; then brush with a cleansing brush for several minutes. This leaves the hair clean and fluffy.

For the informal "feed" after the evening party, try sandwiches made of sweet pickles, chopped fine, and mixed with plain cream cheese; roast beef, sliced thin, and served on wheat bread and serve with tea and ginger ale.

NEW FLOOD CHECK PLAIN SUPPORTED

Supervisors Expected to Back Vital Changes in Dam and Drain Policy

Important changes in flood control construction policy were discussed favorably at a conference yesterday afternoon by George H. Rye, chairman of the Board of Supervisors of the American River, Cross, Frank, Shearer, superintendent of the Los Angeles city park and water, and C. Calver of the River-

by four Los Angeles residents who say they lost \$12,000 in the venture, venture.

Dep. Dist. Atty. McInnes refused to prosecute a required complaining complaint from two sponsors of the track, but promised the investigation.

Mrs. and Mrs. Oscar Jackson, 633 North Detroit street, above the track at \$5100; Mrs. Melissa Puryear, 1428 3-4 Glendale Boulevard, said she lost \$4000, and Mrs. Ada Wharton, the neighborhood, placed her loss at \$3000.

The request for the complaints against the operators of the track was based on their asserted inability to deliver the required amount of complaints told Deputy McInnes.

Mrs. McInnes last night declared the high no connection with the subscription for the track, but a church site presented to her by the subdividers.

Mayor Waits for Spradling to Call on Him

Questioned about further action on his request that Commissioners Spradling resign from the Health Board, Mayor Cory yesterday said that he is expecting Spradling to resign, when the matter of refusal of his request probably will be discussed.

The Mayor stated he has conferred with President Patton and Commissioner Woods on the Spradling row with Dr. George Farrington.

STORAGE CONCERN TO BUILD

Merged Lyon Company Plans Construction of Large Warehouse

Anticipating a larger field of service which will require increased equipment and facilities, the Lyon Van and Storage Company is working on plans for the construction of a building at 3600 South Grand avenue, adjoining one of the chief depositories of the company. This move follows the increased demands brought about by the plans to repair the east end of seven leading fireproof storage and warehouse concerns throughout California into the new Lyon Van and Storage Company.

The new building, planned with special emphasis on terminal facilities, will contain 120,000 square feet of floor space and will embody all of the newest features for safety in storage.

One of the special features of the new company is in the Lyon Van Lines, an associated concern specializing in the intercity transfer of household goods. Its large fleet of fast motor trucks handles all of the long-haul, intensive

and that the two commissioners have promised to use their influence in getting spreading to quit as requested by the Mayor in communication before he went on his vacation.

Satisfaction that the Health Board has resumed its meetings again, after the interruption of a month as the result of the row was expressed by the Mayor.

Local Lawyer Passes Away

P. E. Gregory, local attorney, died yesterday morning at his home at 4432 Canal avenue, Hollywood, after an illness of three months. He was 75 years of age and had been a resident of this city since 1913. Mr. Gregory was born in Delaware county, Indiana, and moved to Los Angeles while but a child. There he attended Kansas University law school and was admitted to the bar in 1900. He was thereafter engaged in politics in his home county and was elected County Attorney in 1901. He represented that county in the Legislature.

He leaves a widow, Mrs. Amlinta Gregory to whom he was married in 1886 in Topeka, Kan., and two daughters, Mrs. G. Ellis West of Paso Robles and Mrs. Marc Holstad, of Westport.

Funeral services have been arranged for Monday at 10 a. m. at the chapel of the Hollywood Cemetery, where interment will take place.
